

Information For Honfleur exhibition

Artist: **Mary Ellen Croteau**

[www.maryellencroteau.net](http://www.maryellencroteau.net)

Statement:

My work with plastic is intended to make this waste visible and make the connection between our throw-away culture and our responsibility to the earth. We need to rethink our needs and our desires if we are going to save this planet.

Attached photos, all at 300dpi:

**CLOSE**, (self-portrait, 2011) plastic bottle caps on masonite board, 8x7 feet (244 x 213 cm) (If you prefer a standard photo, I am attaching that also.)

**Endless Columns**, (2012 - ongoing project) plastic bottle caps and jar lids on PVC cord, size variable (plus detail shot) I will be bringing 7 or 8 of these at approximately 12 feet in height (365cm).

I will hang the columns from the pictured cables which span the room. They can be placed anywhere in the exhibition space.
